**Trading is easy,
but only when done
the right way.**

ramicoin.com

Vision

Ramicoin is a revolutionary community - driven platform designed to create financial growth opportunities by pooling all funds into a single investment pool and strategically trading Bitcoin and Gold.

Our vision is to maximize returns for token holders through a structured, high - value investment strategy focused on long-term growth and stability.

Ramicoin is a game changer in terms of building business where community earns no matter what.

CASHFLOW !

After working more than a decade for big enterprise companies as investor, trader and financial consultant, we were not happy with the work environment we saw there.

Our goal was to work remotely, without time sheets, without office politics and without many meetings that result in poor decision - making and above all the distribution of profits was too biased.

It is said and believed that if you have enough buying power there is no way one can close their financial year in a loss.

Our approach is similar towards financial markets. Let's dive deeper and learn more about it.

After years of working for financial giants, one question never left our minds - ***how is this fair ?***

We were the ones *analyzing markets, mastering investments, predicting trends, and executing trades.*

Yet, ***the real wealth*** ? It always flowed upwards.

No matter how skilled we were, the system was rigged to ensure they made more than us.

The institutions held the power, and we were just tools in their machine.

For months, we sat with this frustration. Six months of brainstorming, questioning, and searching for a way to break free.

And then, it hit us. *What if we removed the middlemen ?*

With blockchain technology, we saw a path forward - a platform with no borders, no bias, no hidden agendas.

A system that welcomes everyone, regardless of color, gender, or location.

Here's how it works ...

We connect investors from around the world, pool funds transparently in exchange of equity - **ramicoïn**, and trade in the most time-tested assets - gold and Bitcoin.

No manipulation. No corporate greed. Just pure market strategy.

And *when we profit* ? Every single holder gets their fair share.
Automatically.

No second thoughts. No gatekeepers. Just trade, profit, and distribute. This isn't just a platform. It's financial freedom !

**Come and join us,
it's just the
beginning.**

CEO

What exactly do we do ?

Let's understand the flow of the the ramicoin ecosystem in phases.

There are in total three phases that will shape the future of ramicoin ecosystem that is made for the community itself.

Phase 1 : **Presale**

Phase 2 : **Staking**

Phase 3 : **Trading**

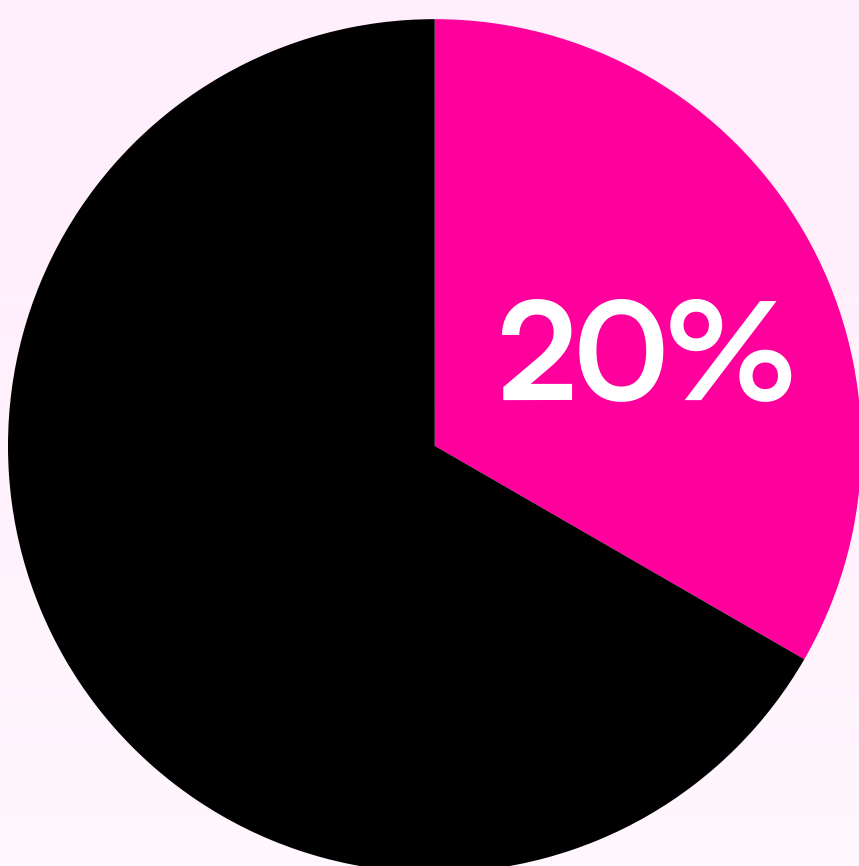

Phase 1. Presale

Presale will independently act as raising funds for trading the markets.

Meaning:

All the funds raised from the presale will be 100% focused and directed to trading bitcoin and gold.

Out of maximum supply of **5B RAMI** tokens 20% of the supply will be sold in presale at a juicy price of just **\$0.005** per ramicoin.

Total Supply :

5,000,000,000

Presale :

1,000,000,000

Price :

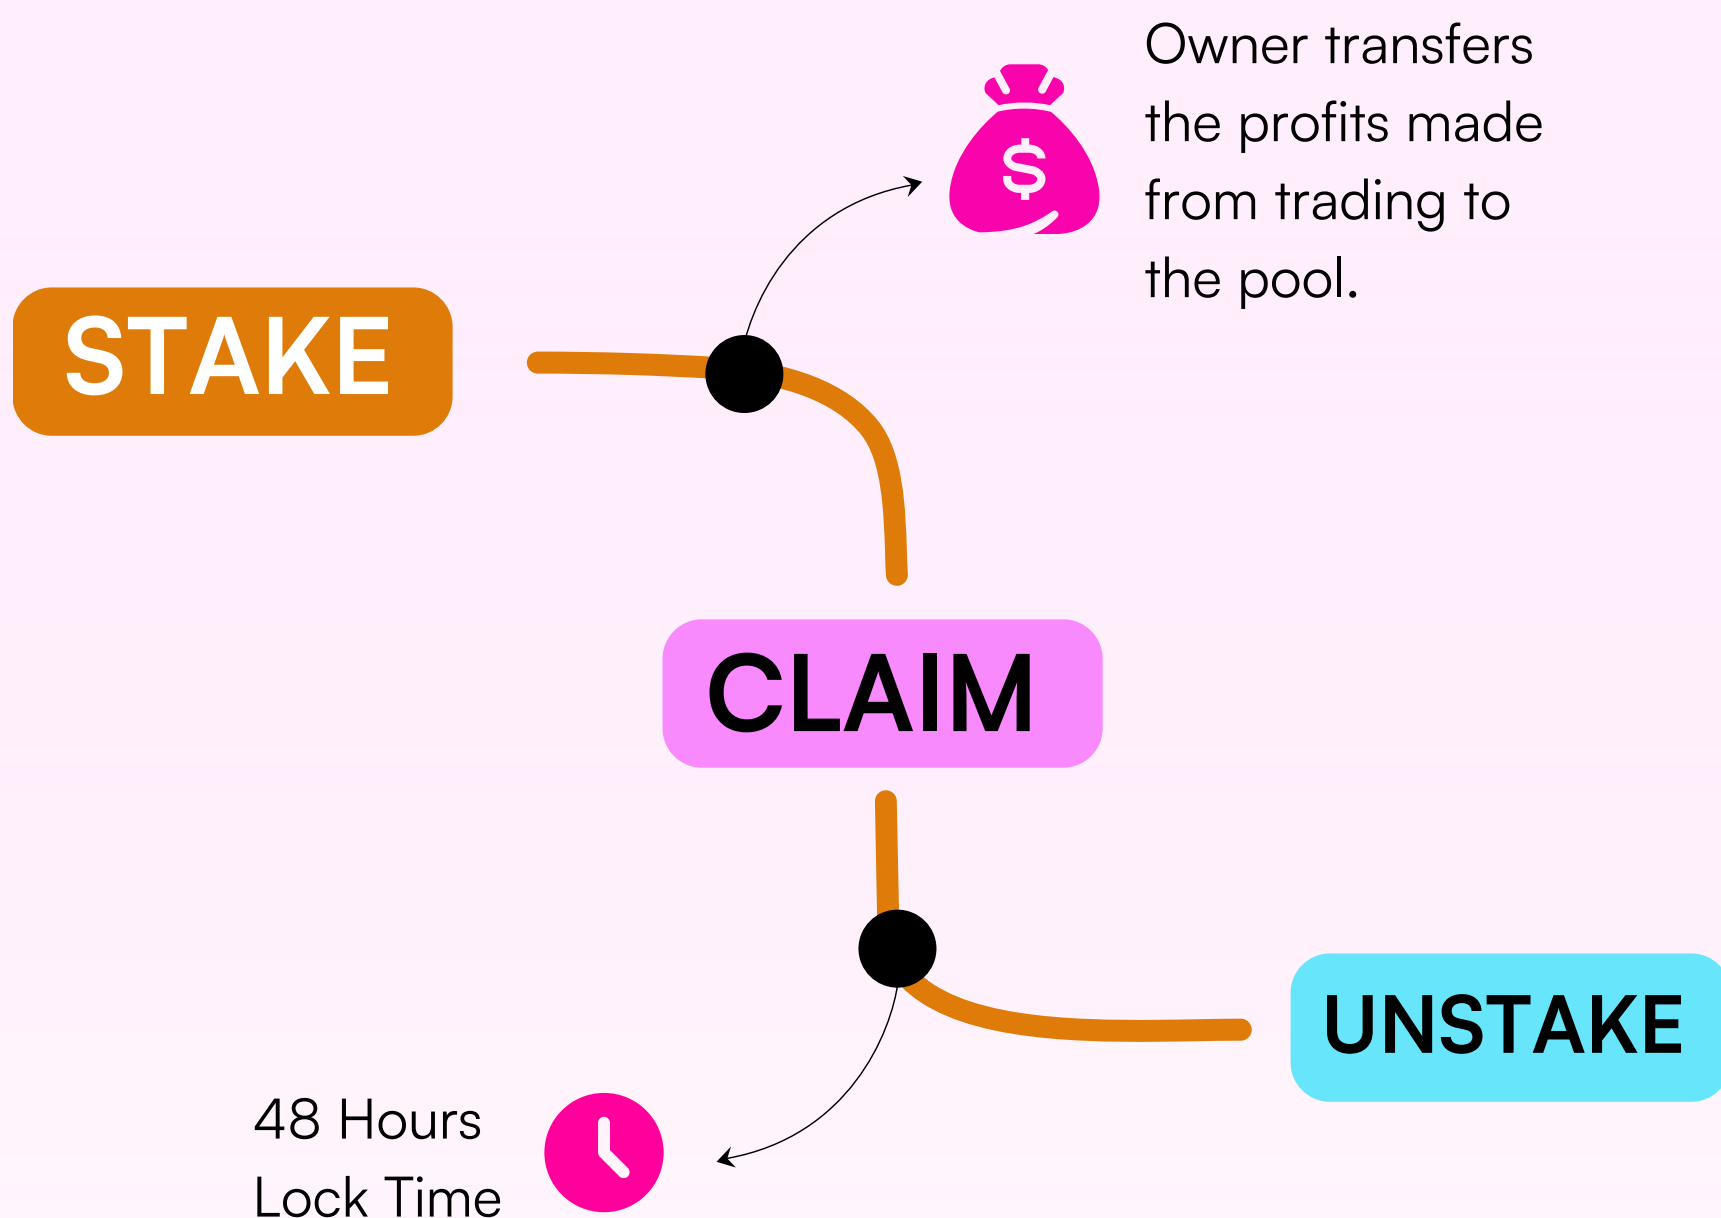

\$0.005

Phase 2. *Staking*

Profits generated from the markets will be deposited by the owner to the *Ramico* *Smart Pool*.

Architecture of Ramico Smart Pool ?

User must stake their ramicoins in the smart pool in order to start earning the passive income from the profits generated in trading markets.

Phase 3. Trading

All the trading sessions will be live streamed on the official *ramicoin youtube channel*. **Bitcoin** and **Gold**.

While trading financial markets with larger amounts the security of funds is the most important thing. Choosing the right broker is crucial.

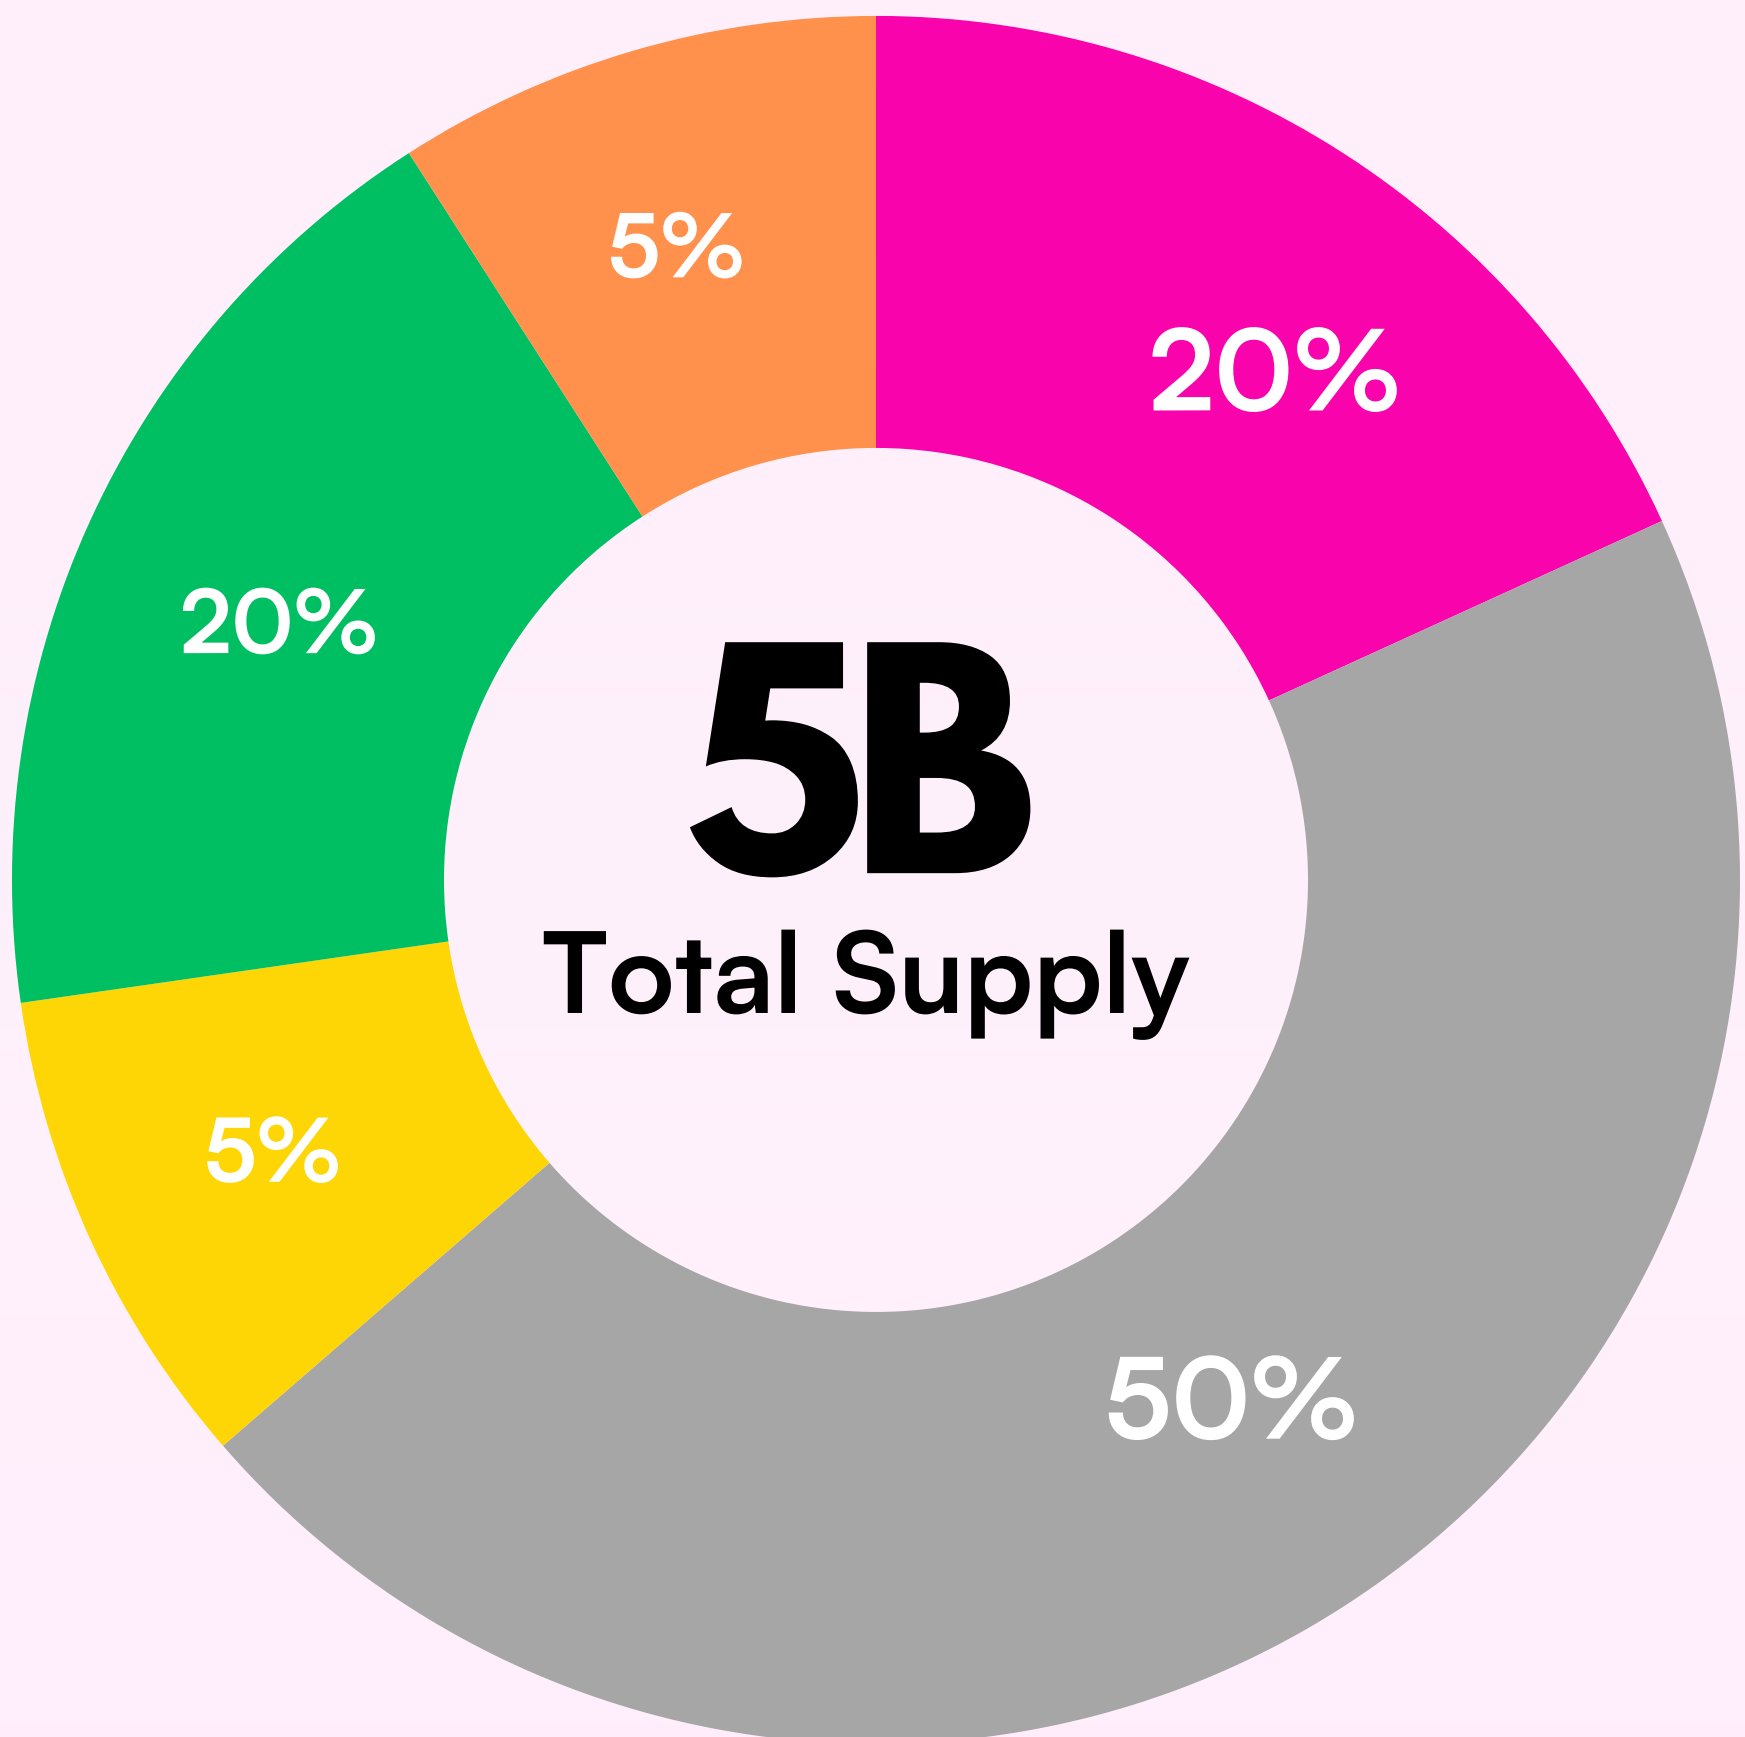

We trade with the leading brokers,

Binance
